

## Senior Project Consultant (m/f)

As the external project consultant, you contribute to complex, demanding projects at the crossroads of IT and business. Your role goes far beyond being a consultant to your clients, as you take real responsibility for delivering results. Your success is defined by your customers achieving the desired value-adding process and business changes.

Your responsibilities include:

- In close collaboration with the project or program management:
  - Requirements gathering, definition of the project goals and business results, and a realistic project plan
  - Establishing a management model, project structure and project organisation
  - Creation of a resilient project plan and commitment of project results
  - Agreement on resources and budgets
- Leading the (sub-) project team (directly, or in partnership with the clients' project lead)
- Monitoring the project progress (time & money) and initiation of all corrective measures to ensure the project success
- Regular project reviews with the clients' management and the project or program lead
- Involvement and enablement of all affected business departments to guarantee the successful transition to the new processes in the daily business

Your knowledge, skills and abilities:

- At least five years of experience as project manager for IT projects or line manager in IT or business process roles
- Solid knowledge of project management methods and tools
- Ideally coming from a process background in the automotive, aerospace or financial services industries
- Personal integrity and responsibility, customer orientation and authority
- Good understanding for the soft, human success factors in projects and organisations
- Excellent interpersonal and communication skills
- Fluent in both English and German

Our offer:

- Working in challenging and mission-critical projects at well-known customers
- Knowledge sharing within our internal team of experts
- A company spirit that sets the benchmark for promoting the individuals' responsibility and development
- Strong teamwork based on respect
- Flexible working hours (also part-time)
- An attractive salary that matches your experience and responsibilities
